THIN FILM APPARATUS**2 Apparatus Data**

Type of apparatus rigid blade wiper (-type: see brochure) dryer short path

Apparatus data heating surface [m²]
 heat transmission k-value [W/m²K]
 Δ t (log) [°C]

Installation indoor outdoor in structure
 self-supporting available floor space (l x w x h) [m]:

Design code AD-Merkblätter ASME other:

Design data

max. operating pressure product side [bar (g)]
 heating medium [bar (g)]

max. operating temperature product side [°C]
 heating medium [°C]

Materials product side: heating medium:
 gaskets:

Shaft seal axial face seal double axial face seal other
 make:

Speed control fixed speed frequency controller manufacturer

Electric data -phase V Hz neutral

Design according to GMP CIP SIP FM other
 ATEX: EEx-type: safety-zone: temp.-class:

3 Scope of Quotation

- apparatus with drive unit condenser vapour pipe discharger
 frequency control bearing lubrication process control quench system
 complete plant in structure skid-unit spare parts
 other:

further proceeding: laboratory testing pilot testing offer visit
